HOW TO SET AN OLED WATCH AL22000 SERIES

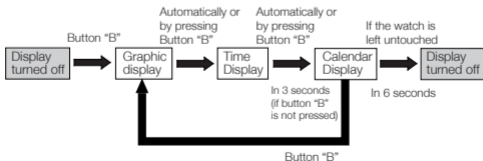

FEATURES

- (1) Time display
Hour and minute are displayed.
- (2) Calendar display
Date and day of the week are displayed.
- (3) Fully automatic calendar
The calendar adjusts for odd and even months including February of leap years.
- (4) Graphic display
Nine moving graphics are displayed in random order.
- (5) OLED display
It provides brighter and clearer display than the conventional LCD.

BUTTONS AND DISPLAYS

- * While the display is turned off, press button "B" to show the graphic display.
The displays are shown in the following order.

TIME/CALENDAR SETTING

- (1) While the display is turned off, press button “B” to show the graphic display.

- (2) Keep button “A” pressed for 2 seconds while the time or calendar display is shown to show the time/calendar setting display. The hour digits start flashing.
- * If the watch is left untouched in the time/setting display with the digits flashing, the display will be turned off automatically in 6 to 7 seconds.
- (3) With each press of button “A”, the selection of the digits to be adjusted (flashing) is made in the following order:
- (4) Press button “B” to set the flashing digits. One digit is advanced with each press of button “B”. The digits move quickly if the button is kept pressed.
- * The year can be set from 2007 to 2050. After 2050, the digits return to 2007.
 - * Once the year, month and date have been set, the day of the week is set automatically.
- (5) After the year setting is over, pressing button “A” will show the graphic display, and then, the time and calendar displays will appear in order before the display is turned off.

BATTERY REPLACEMENT

For OLED watch, if the display becomes dim or no display appears by pressing button “B”, replace the battery with a new one. For battery replacement, contact the retailer from whom the watch was purchased, and specify “CR2025”.

BATTERY LIFE

When a new battery is installed, and the OLED display is turned on 24 seconds or less per day, this watch can operate for approximately 18 months. (Battery life depends on frequency and use of certain features.)
